1. The most modern ammunition depot in Hungary is built in the caves near Diósd and Nagytétény. Enlargement of the underground storerooms is still in progress at the following places:

- a. Southwest side of the Nagytétény plateau.
- b. North-northeast of Nagytétény railway station.
- c. Southeast of the village of Diósd, (believed to include the construction of an ammunition assembly plant.

2. The section of the depot already completed consists of 33 underground storerooms (numbered from I to XXXIII in Roman numerals). Each storeroom is about 20-25 m. underground and has a separate entrance. Elevator and conveyor belt are in operation.

3. The depot contains cartridges, fuses, mortar and antitank gun ammunition as well as bombs for the Hungarian Air Force. Most of the ammunition comes from the nearby munitions factory at Törökbalint.
